Dear Mr. Sullivan:

In the enclosed listing I have identified, by your OSI identification number, those subjects of OSI interest [redacted] (b)(1) (b)(3)

Prior to our review of the records on these individuals, I would appreciate your confirmation that they continue to be subjects of investigation of violations of United States law. It would also be helpful if your office could prioritize the subjects on this list, identify specific areas of interest and provide additional background information on the subjects. Additional biographic information on the subjects would be especially helpful in those cases where we have not been able to identify a subject in our files as the same individual referred to in your request.

[redacted] Unless advised to the contrary, I will direct Agency components to begin the file review in the sequence shown on the enclosed listing and to search their records for information concerning membership in the Nazi party from 1933-45; membership in the SS, Waffen SS or collaborator governments during World War II; applications for visas to the United States; and naturalization proceedings for these subjects. (b)(1) (b)(3)

Please feel free to contact me if you have any questions concerning this matter. My telephone number is [redacted] (b)(3)

Sincerely,
